

MARYLAND MARCH FOR LIFE

www.marylandmarchforlife.org

Dear Participants in the Maryland March for Life,

The goal of the Maryland March for Life is to provide a family friendly environment which encourages citizens of Maryland to become active in taking a stand for life. For some in attendance, it is their first time attending anything pro-life and we are thankful to provide a welcoming environment for such an occasion.

With this in mind and in accordance with the guidelines posted on our website, graphic images will not be permitted at the Maryland March for Life. While the pictures do show the truth of abortion and there are some appropriate times for using these images – this is not the time or the place. As we try to increase the presence of pro-lifers at this March, we have heard from many that they do not want to bring their children if these images will be used.

The Board of Directors respectfully asks that no participants bring graphic images or encourage/invite others to do so – either during the March or at the Mixer afterwards. We also request that no amplification devices are present as well.

Thank you for respecting the decision of the Maryland March for Life and thank you for coming to Annapolis on March 12th to stand for the dignity of life!

Sincerely,

Board of Directors
Maryland March for Life
